

Plan: Reception

Term: Language Booster

Unit	Summary
Language Booster (20 Sessions)	In this unit, the children develop their spoken language skills through group play, using the LEGO® Education Story Tales set. They practise naming the LEGO® DUPLO® character elements and bricks, give and follow instructions for constructing scenes, act out and repeat traditional rhymes and stories, then use the bricks and elements as a stimulus for building and telling stories of their own. For more information about how to use this unit, see 'Introductory notes' (LB AR 1).
