

Cambo Preschool for Autumn Second Half Term 2015

Events/Christmas Crafts

Mathematics Numbers	What we will offer the children/how we may meet the targets.
<p>22-36 months Recites some number names in sequence. Selects a small; group of objects when asked for example please gives me two.</p> <p>30-50 months Uses some number names and number language spontaneously. Uses some number names accurately in play. Recites numbers in order to 10. Sometimes matches numbers and quantity correctly. Shows curiosity about numbers by offering comments or asking questions.</p> <p>40-60 Months + Recognise numerals 1 to 5. Counts 3 to 4 objects by saying one number name for each item. Counts objects to 10 and begins to count beyond.</p>	<p>This half term we will be exploring numbers throughout sessions and will be offering and working with individual children to help them achieve or explore the given targets. We always will encourage counting the number of children at circle time finding the total number on the number line, counting plates and cups at snack time.</p> <p>We will be using numbered cards to encourage the children to match the numbers correctly or to ask them to find the number.</p> <p>We will be using number jigsaws games and flash cards working individually with children.</p> <p>We will also offer number activities jigsaws, number sheets and colouring and encourage the children to count during every day sessions e.g. how many sausages/biscuits have you made with playdough.</p>
