	Create	Interpret	Compare	Problem solving	Means and averages
1					
2	<p>Construct simple pictograms, tally charts, block diagrams and simple tables</p> <p>Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity</p>	<p>Interpret simple pictograms, tally charts, block diagrams and simple tables</p> <p>Ask and answer questions about totalling</p>	<p>Compare categorical data</p>		
3	<p>Present data using bar charts, pictograms and tables</p>	<p>Interpret data using bar charts, pictograms and tables</p>		<p>Solve one-step and two-step questions (for example 'How many more?' and 'How many fewer?') using information presented in scaled bar charts and pictograms and tables</p>	
4	<p>Present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs</p>	<p>Interpret discrete and continuous data using appropriate graphical methods, including bar charts and time graphs</p>		<p>Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs</p>	
5	<p>Complete, information in tables, including timetable</p> <p>Complete, read and interpret information in tables, including timetables</p>	<p>Complete, read and interpret information in tables, including timetables</p>		<p>Solve comparison, sum and difference problems using information presented in a line graph</p>	
6	<p>Construct pie charts and line graphs and use these to solve problems</p>	<p>Interpret pie charts and line graphs and use these to solve problems</p>			<p>Calculate and interpret the mean as an average</p>
