## Agenda / Minutes

### Date: March 2018

#### **Agenda / Minutes**

##### Summer menus

The children voted from the choices on the menu. We talked about how everyone needed to vote for what they wanted and not what their friends wanted as we would go with the majority. We have a couple of new meals on the menu. We will vote after each new meal to see if the majority are happy.

##### Manners

Children have been reminded to use their manners at all times and to respect all adults.

##### Rules in the playground

The children sometimes get confused as to what the rules are. It was decided to display a list of rules for staff and children. It was also discussed that basketball, football, bulldog and other yard games are given set days to make it fair. You can't play basketball if the footballers are playing football on the yard.

##### Plates / Food waste

The children were concerned that some days there is a lot of waste. Children will tell Dawn if they don't like certain foods and she will only give them a very small amount to try. This should reduce the waste.

##### Monitors / Incentive

Year 3 and 4 are still happy to be monitors. The children agreed that it wasn't as busy and it doesn't take as long to clear the tables when the older children are monitors. As an incentive it was decided that children will get to wear a special 'Dawn's little Helper' apron and chefs hat and help give out pudding once a week.

##### Toilet Monitors

Monitors are still to remind children to go to the toilet before lunch as there still seems to be a lot of children needing to go during lunch.

##### Packed lunch would like their own table

It was decided that it wouldn't be fair to let the children on packed lunch have their own table as the children on school lunches don't have one, they just have to sit wherever there is space.

##### Congestion

Children agreed there is less congestion by only allowing monitors to leave their seat. If they need any help or speak to a lunchtime supervisor they raise their hand.
