Agenda / Minutes

Date: 5th March 2019

Agenda / Minutes

Manners / Behaviour

Children have been reminded to use their manners at all times and to respect all adults.

When a supervisors raises their hand you have to stop talking and listen. Some children still talk and don't listen.

Only talk to the people on your table to keep the noise down.

Monitors

It was agreed there will be two monitors on the big tables.

We don't want to hurry children with their lunch. If you are a slow eater you will be asked to clear your own plate so that the rest of your table can go out to play . A lunchtime supervisor will be in the hall until you have finished.

Rules in the Dining Hall

Monitors are the only people who are allowed to leave the table.

Do not fill your cup too full as this causes a lot of spillages.

Noise level in the hall is due to a lot of children although sometimes children are being silly on the big tables. No warnings, any silly behaviour and you will be put out of the hall.

Rules outside

Make a sign to follow the rules outside

There is a lot of arguing over wood. Some Year groups are taking wood that doesn't belong to them.

It was agreed we would ask if Gary would be able to get some more wood to share. Gary is also going to check the platform on the tree house to make sure it is stable.

Children playing in the muddy hole are not allowed to go in the wood they have to stay in the muddy hole.

Year 3 are not allowed to climb their tree until the weather changes.

People are arguing about the size of the den. Everyone has to agree to stop the arguing.

Food Choices

We have some children who struggle to eat certain foods, they struggle to chew, digest food, not just fussy eaters On these occasions Dawn will make them an alternative. Dawn doesn't have time to make different food because you want something different on that day but if you really don't like something Dawn will give you something else.

Monitors try to encourage others to have bread
